

PROJECT FACT SHEET

GLENCORE

Aurukun Bauxite

ABOUT GLENCORE

July 2019

WHO IS GLENCORE?

Glencore is one of the worlds largest natural resource companies.

We produce and market a large number of metals and minerals as well as energy and agricultural products.

We work across industries that include coal, copper, cotton, grain, nickel, oil and zinc.

We sell these products to customers all over the world.

WHERE DO WE WORK?

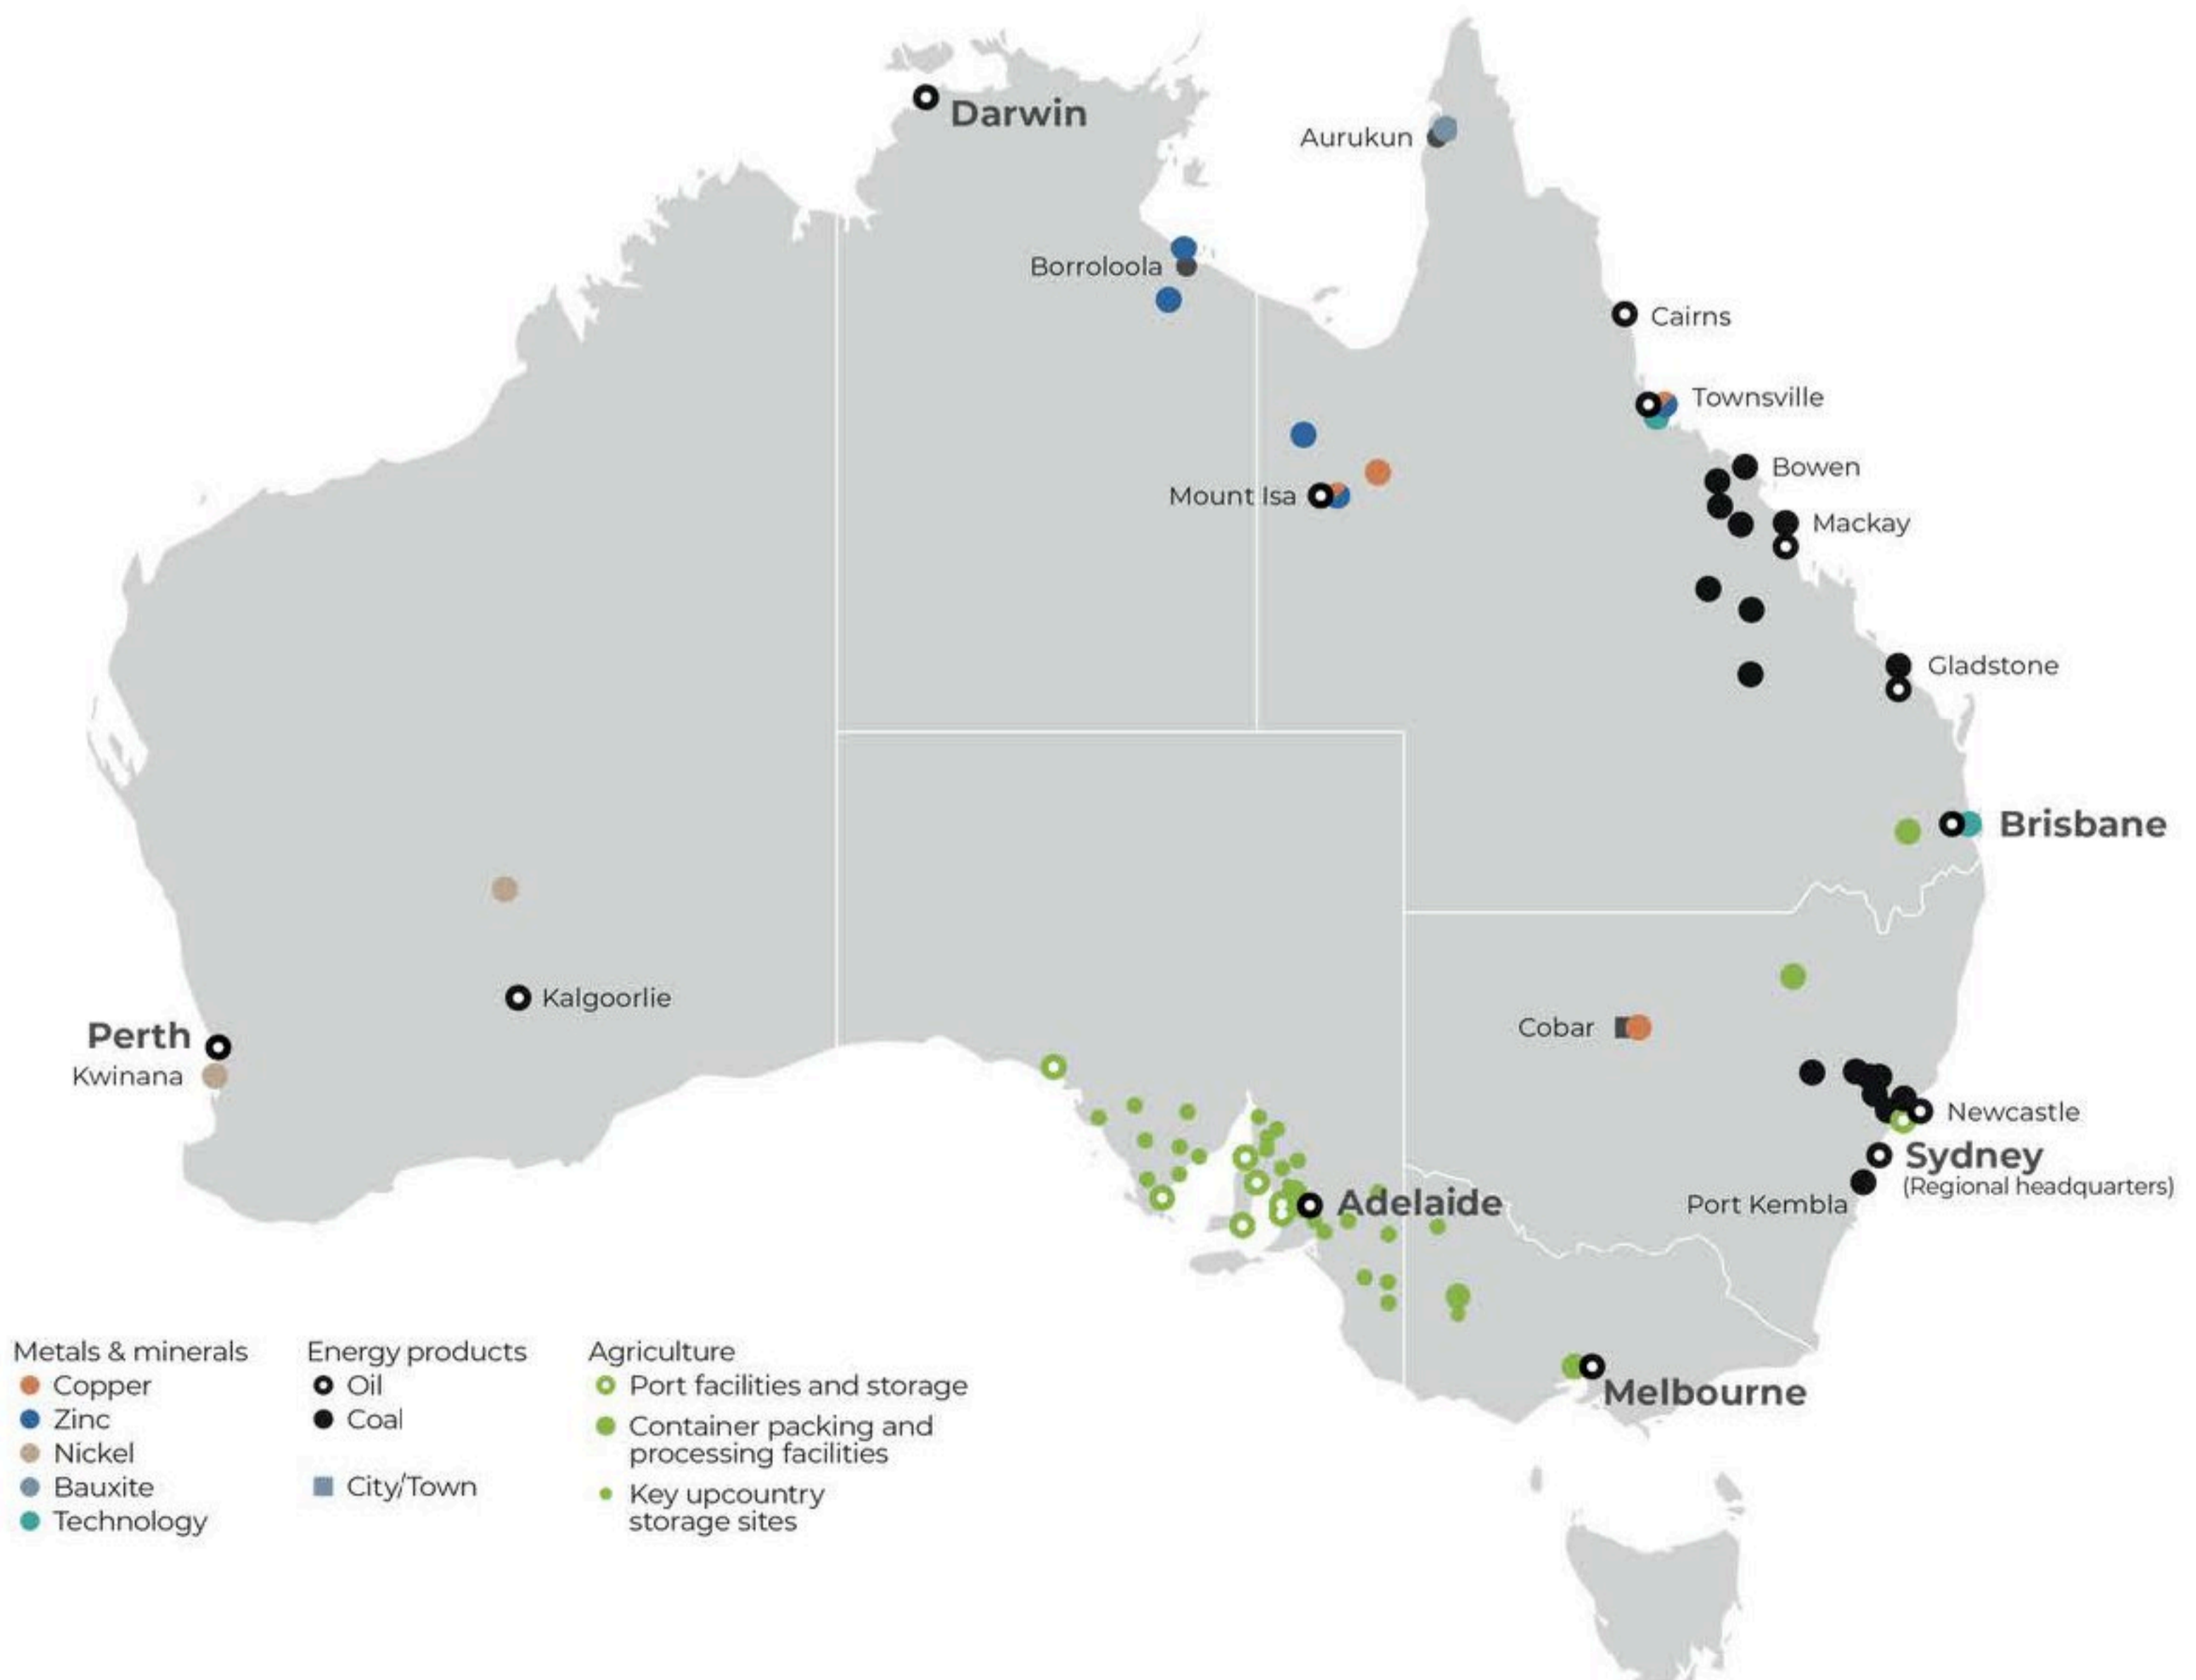

Our head office is in Switzerland but we have operated in Australia for more than 20 years.

We are a major Australian employer providing work for about 18,000 people across all mainland states and the Northern Territory.

Our operations in Queensland include:

- Zinc and copper mines in and around Mount Isa and Cloncurry; and
- Coal mines in the central Queensland on the east coast

We are proud to make a positive and lasting contribution across regional Australia.

SAFETY AS OUR FIRST PRIORITY

Our first priority in the workplace is to protect the health and well-being of all our people. We take a proactive approach to health and safety; our goal is continuous improvement in the prevention of occupational disease and injury.

SAFEWORK

Every single individual has the authority to stop unsafe work at Glencore's operations.

OUR VALUES

Our values reflect our purpose, our priorities and the beliefs by which we conduct ourselves.

- Safety is our first priority
- We foster an entrepreneurial spirit in all our people
- We aim to achieve our key deliverables efficiently and with simplicity
- We recognise our responsibility for the impact we have on our society and environment
- We value openness in our relationships and communication
