

WANDOAN COAL PROJECT

GLENCORE

FAST FACTS

Ownership

The Wandoan Coal Project is managed by Glencore on behalf of the Wandoan Joint Venture between Wandoan Holdings Pty Limited (Glencore) (75%), ICRA Wandoan Pty Ltd (12.5%), and SCAP Wandoan Pty Ltd (12.5%).

Wandoan Coal Project

The proposed mine would include an open-cut coal mine, a coal handling and preparation plant, and support facilities.

Wandoan Exploration

Drilling across various exploration tenements commenced in August 2018. We are drilling to further investigate and analyse the resource, and continue to meet our obligations for the exploration tenements.

The Wandoan Coal Project is located immediately west of the Wandoan township in Queensland's Surat Basin, 168 kilometres north east of Roma.

Wandoan 2020 performance

People Employed
25

Community Support is over
\$2.2 million

Total area of tenement managed by Wandoan Coal Project
3,500 km²

Environmental Management

We have implemented a comprehensive environmental monitoring program for the Wandoan Coal Project that is gathering baseline data on air quality, ambient noise, climate, surface water and ground water.

If the proposed mine is developed, we will continue to monitor the environment and implement prevention or mitigation techniques to ensure that our operations meet best-practice environmental standards.

Community

To date Glencore has already contributed approximately \$2.2 million to support the Wandoan community through a range of projects including:

- Partnership with Queensland Health for the Wandoan Primary Health Centre to deliver improved primary healthcare services to the Wandoan township;
- Partnership with Queensland Minerals and Education Academy (QMEA) providing programs for students at the Wandoan and Taroom State Schools and Miles State High School;
- The Wandoan Community Fund, to support local community through projects which align with our key focus areas in capacity building, health and environment.

In addition to community projects and sponsorship, we are spending around \$1.7 million annually with local businesses in the Wandoan community for property, exploration, and business management activities, including with earthmoving contractors, fencing contractors, electricians, builders, plumbers, office supplies, food and catering services, and materials and equipment providers.

Core Values

Our Values are the fundamental principles by which we conduct our business and are incorporated into all areas of Glencore Corporate Practice.

- Safety
- Entrepreneurialism
- Simplicity
- Responsibility
- Openness
- Integrity

2010

The Wandoan Coal Project received Queensland Government approval in accordance with the conditions in the Coordinator-General's Evaluation Report for the Project.

2012

The Queensland Land Court recommended the Queensland Government approve the mining lease applications for the Wandoan Coal Project.

2014

Restructure of property leasing arrangements, with the amalgamation of some properties, and only local people eligible to tender for leasing of properties.

2017

Queensland Government approved three, 27-year mining leases for Stage 1 Wandoan Coal Project.

2011

The Project received conditional environmental approval from the Federal Government.

2013

Glencore announced the Wandoan Coal Project had been placed on hold.

2015

Drilling of water bore, to give to Western Downs Regional Council as a new potable water supply for Wandoan.

2018

Recommended exploration drilling across various mineral development licences and exploration permits for coal.
